

Since our founding in 1885, First Farmers Bank & Trust has been an integral partner in the local community in both celebrating the successes of our customers and employees while always mindful to assist and support them in times of significant challenge. We take pride in their accomplishments like high school graduations, county fair exhibitions, and athletic events. We have shared in prayer with them in times of war, economic hardship, and civil unrest. Our bond with all is strengthened through our understanding of them as individuals.

We welcome and appreciate the diversity of our employees and customers. We continue to grow and learn from those of a different race...gender...national origin...religion...age...disability...veteran status...sexual orientation. It is our appreciation, respect, and understanding of these differences that make First Farmers Bank & Trust a successful, caring, and forward-thinking organization.
